RANIKHET DISEASE VACCINE INACTIVATED IP

Nobilis®

ND BROILER

**NOT FOR HUMAN USE
FOR ANIMAL TREATMENT ONLY**

Warning: To be sold by retail on the prescription of a 'Veterinary Doctor' only

DESCRIPTION

Inactivated vaccine for the protection of day old chickens against Newcastle Disease. Nobilis ND Broiler contains one immunogenic strain of Newcastle Disease virus. The virus has been grown on embryonated eggs and is inactivated with formalin. Subsequently they have been suspended in the aqueous phase of an oil adjuvant emulsion.

COMPOSITION

Active component :Inactivated ND virus Clone 30 containing ≥ 20 PD₅₀ units/dose (protective dose 50%) or inducing ≥ 4 log₂ HI units per 1/50 dose

INDICATION

Vaccination of day-old chickens (broilers) against Newcastle Disease.

VACCINATION PROGRAMME

Nobilis ND Broiler is administered by injection at day-old, in combination with live ND vaccine, e.g. Nobilis ND Clone 30, administered by spray or the oculo-nasal route.

DOSAGE AND ADMINISTRATION

Inject 0.1 ml per broiler intramuscularly into the thigh muscle, or subcutaneously into the lower part of the neck.

VACCINATION REACTION

In healthy broilers no clinical reaction to vaccination will be observed. For some weeks after vaccination a very slight swelling may occur at the site of injection. Local tissue reaction may occur.

IMMUNITY

Healthy broilers, vaccinated at day-old with Nobilis ND Broiler and Nobilis ND Clone 30 will be protected until slaughter.

NOTE

- Only vaccinate healthy broilers.
- Before using vaccine allow it to reach room temperature (15-25 °C).
- Shake the bottle before use.
- Use sterilised syringe and needle.
- Use the entire contents when first opened.
- Do not mix with other vaccines.
- Should a vaccinator by accident inject himself or a bystander a local reaction may occur. It is recommended that the advice of a doctor be sought taking care to inform the doctor that the vaccine is an oil emulsion.

WITHDRAWAL PERIOD : NONE

SHELF LIFE

36 months

STORAGE: Store in dark between 2 °C and 8 °C.

PACK: Bottles containing 200 ml sufficient for 2000 doses.
